# VOLUME CONTENTS

No. 1, August 1994

### CELL BIOLOGY

**Koppelhus, Uffe, Per Hellung-Larsen, and Vagn Leick**
Physiological parameters affecting the chemosensory response of *Tetrahymena* ..... 1

**Koppelhus, Uffe, Per Hellung-Larsen, and Vagn Leick**
An improved quantitative assay for chemokinesis in *Tetrahymena* ..... 8

**Read, A. T., R. R. Hessler, and C. K. Govind**
Muscle and nerve terminal fine structure of a primitive crustacean, the cephalocarid *Hutchinsoniella macracantha* ..... 16

### ECOLOGY AND EVOLUTION

**Metz, Edward C., Robert E. Kane, Hiroko Yanagimachi, and Stephen R. Palumbi**
Fertilization between closely related sea urchins is blocked by incompatibilities during sperm-egg attachment and early stages of fusion ..... 23

### FUNCTIONAL MORPHOLOGY

**Flammang, Patrick, Stephane DeMeulenaere, and Michel Jangoux**
The role of podial secretions in adhesion in two species of sea stars (Echinodermata) ..... 35

### NEUROBIOLOGY AND BEHAVIOR

**Anctil, Michel, and Jean-Pascal Carette**
Glutamate immunoreactivity in non-neuronal cells of the sea anemone *Metridium senile* ..... 48

**Lucero, Mary T., Heraldo Farrington, and William F. Gilly**
Quantification of L-dopa and dopamine in squid ink: implications for chemoreception ..... 55

**New, John G.**
Electric organ discharge and electrosensory reafference in skates ..... 64

### PHYSIOLOGY

**Dietz, Thomas H., Diondi Lessard, Harold Silverman, and John W. Lynn**
Osmoregulation in *Dreissena polymorpha:* the importance of Na, Cl, K, and particularly Mg .... 76

**Thuesen, Erik V., and James J. Childress**
Oxygen consumption rates and metabolic enzyme activities of oceanic California medusae in relation to body size and habitat depth ..... 84

### SEX CHANGE IN INVERTEBRATES

**Brook, Heather J., Timothy A. Rawlings, and Ronald W. Davies**
Protogynous sex change in the intertidal isopod *Gnorimosphaeroma oregonense* (Crustacea: Isopoda) 99

**Sewell, Mary A.**
Small size, brooding, and protandry in the apodid sea cucumber *Leptosynapta clarki* ..... 112

**Annual Report of the Marine Biological Laboratory** R1

No. 2, October 1994

A tribute to Professor Katsuma Dan on his 90th birthday ..... 125

### DEVELOPMENT AND REPRODUCTION

**Gibson, Glenys D., and Fu-Shiang Chia**
A metamorphic inducer in the opisthobranch *Haminaea callidegenita:* partial purification and biological activity ..... 133

**Temkin, M. H.**
Gamete spawning and fertilization in the gymnolaemate bryozoan *Membranipora membranacea* ... 143

### FUNCTIONAL MORPHOLOGY

**Williams, Terri A.**
Locomotion in developing *Artermia* larvae: mechanical analysis of antennal propulsors based on large-scale physical models ..... 156

**Williams, Terri A.**
A model of rowing propulsion and the ontogeny of locomotion in *Artemia* larvae ..... 164

CONTENTS

NEUROBIOLOGY

**Nezlin, L. P., R. Elofsson, and D. A. Sakharov**
Transmitter-specific subsets of sensory elements in the prosobranch osphradium ..... 174
**Chin, Gilbert J., Kemal Payza, David A. Price, Michael J. Greenberg, and Karen E. Doble**
Characterization and solubilization of the FMRF-amide receptor of squid ..... 185
**DellaCorte, Christian, Don S. Anderson, William O. McClure, and D. Lynn Kalinoski**
Neurofilament-like immunoreactivity in the sea anemone *Condylactis gigàntea* (Cnidaria: Anthozoa) 200

PHYSIOLOGY

**Airriess, Chris N., and James J. Childress**
Homeoviscous properties implicated by the interactive effects of pressure and temperature on the hydrothermal vent crab *Bythograea thermydron* 208
**Yoon, K. S., Y. P. Chen, C. R. Lovell, D. E. Lincoln, L. W. Knapp, and S. A. Woodin**
Localization of the choloroperoxidase of the capitellid polychaete *Notomastus lobatus* ..... 215
**Short Reports from the Marine Biological Laboratory's General Scientific Meetings** ..... 223

No. 3, December 1994

RESEARCH NOTES

**Silver, Robert B., Mutsuyuki Sugimori, Eric J. Lang, and Rodolfo Llinás**
Time-resolved imaging of $Ca^{2+}$-dependent aequorin luminescence of microdomains and QEDs in synaptic preterminals ..... 293
**Sugimori, Mutsuyuki, Eric J. Lang, Robert B. Silver, and Rodolfo Llinás**
High-resolution measurement of the time course of calcium concentration microdomains at squid presynaptic terminals ..... 300
**Johnson, Leland G., and Russell C. Babcock**
Temperature and the larval ecology of the crown-of-thorns starfish, *Acanthaster planci* ..... 304

DEVELOPMENT AND REPRODUCTION

**Guo, Ximing, and Standish K. Allen, Jr.**
Reproductive potential and genetics of triploid Pacific oysters, *Crassostrea gigas* (Thunberg) ..... 309

ECOLOGY AND EVOLUTION

**Lesser, Michael P., Jon D. Witman, and Kenneth P. Sebens**
Effects of flow and seston availability on scope for growth of benthic suspension-feeding invertebrates from the Gulf of Maine ..... 319
**Parker, Terry, and Verena Tunnicliffe**
Dispersal strategies of the biota on an oceanic seamount: implications for ecology and biogeography 336
**Voris, Harold K., William B. Jeffries, and Sombat Poovachiranon**
Patterns of distribution of two barnacle species on the mangrove crab, *Scylla serrata* ..... 346

NEUROBIOLOGY AND BEHAVIOR

**DellaCorte, Christian, William O. McClure, and D. Lynn Kalinoski**
Identification of synaptophysin-like immunoreactivity in the sea anemone *Condylactis gigantea* (Cnidaria: Anthozoa) ..... 355
**Hanlon, Roger T., Malcolm J. Smale, and Warwick H. H. Sauer**
An ethogram of body patterning behavior in the squid *Loligo vulgaris reynaudii* on spawning grounds in South Africa ..... 363
**Penn, Dustin, and H. Jane Brockmann**
Nest-site selection in the horseshoe crab, *Limulus polyphemus* ..... 373

PHYSIOLOGY

**Reese, John E., and Charlotte P. Mangum**
Subunit composition and $O_2$ binding of the crustacean hemocyanins: interspecific relationships .... 385
**Shilling, Fraser M., and Donal T. Manahan**
Energy metabolism and amino acid transport during early development of antarctic and temperate echinoderms ..... 398

**Index to Volume 187** ..... 408

**Notice to Subscribers**

The 1995 subscription rate for *The Biological Bulletin* will be $185 for the year (6 issues: $92.50 for 3 issues). Back and single issues are $37.50, and subject to availability. For additional information, please contact our subscription officer at the Marine Biological Laboratory, Woods Hole, MA 02543; tel: (508) 548-3705, ext. 402.
